

British Young Drivers Championships 2009

Chef d'Equipe's Report

Once again I was honoured to act as chef d'equip for the Irish Junior Team which travelled to Escrick for the British Young Drivers Championships.

Yet again the competition was very stiff and again all our young drivers competed to the best of their ability.

This year the scoring system was quite different as we had to select four Team members out of the seven to count as the overall Team score.

Choosing these four was very difficult but we decided to look at the experience within the team and also the make up of each class to help us decide.

Those who did make the final four represented Ireland extremely well and to finish second to an English team with four drivers who each won thier respective classes in the Nationals at Windsor was a fantastic achievement.

Yet again each of our team members did Ireland proud and with new members attending this year I feel that our junior team is developing well for the future.

I would like to thank all the young people who travelled with us for their support over the weekend and state once more what a pleasure it was to be in their company and enjoy the craic.

Many Thanks to all

Pauline Campbell
